Contents

World List Abbreviation: *J. Biogeogr*

Volume 23, Number 1, January 1996

Sian Sullivan: Guest Editorial: Towards a non-equilibrium ecology: perspectives from an arid land 1

Rain forest fragments

Mathilde Jullien and Jean-Marc Thiollay: Effects of rain forest disturbance and fragmentation: comparative changes of the raptor community along natural and human-made gradients in French Guiana 7

Barbara L. Zimmerman and Daniel Simberloff: An historical interpretation of habitat use by frogs in a Central Amazonian forest 27

Stefan Porembski, Jörg Szarzynski, Jan-Peter Mund and Wilhelm Barthlott: Biodiversity and vegetation of small-sized inselbergs in a West African rain forest (Taï, Ivory Coast) 47

Fangliang He, Pierre Legendre and James V. LaFrankie: Spatial pattern of diversity in a tropical rain forest in Malaysia 57

Insects

Qiao Wang, Ian W. B. Thornton and Tim R. New: Biogeography of the phoracanthine beetles (Coleoptera: Cerambycidae) 75

Mikhail V. Kozlov: Patterns of forest insect distribution within a large city: microlepidoptera in St Petersburg, Russia 95

Kevin J. Gaston, Ian D. Gauld and Paul Hanson: The size and composition of the hymenopteran fauna of Costa Rica 105

Correspondence

G. R. Coope and G. Lemdahl: Validations for the use of beetle remains as reliable indicators of Quaternary climates: a reply to the criticisms by Johan Andersen 115

Johan Andersen: Do beetle remains reliably reflect the macroclimate in the past? – a reply to Coope & Lemdahl 120

Book reviews 123

Announcement 128

Volume 23, Number 2, March 1996

Hui Jiang: Special paper: Diatoms from the surface sediments of the Skagerrak and the Kattegat and their relationship to the spatial changes of environmental variables 129

Fish, fowl and fur

R. M. McDowall: Volcanism and freshwater fish biogeography in the northeastern North Island of New Zealand 139

George C. Stevens: Extending Rapoport's rule to Pacific marine fishes 149

Curtis H. Flather: Fitting species-accumulation functions and assessing regional land use impacts on avian diversity 155

Jean-Louis Martin and Jean-Claude Thibault: Coexistence in Mediterranean warblers: ecological differences or interspecific territoriality? 169

John M. Lynch: Postglacial colonization of Ireland by mustelids, with particular reference to the badger (*Meles meles* L.) 179

Catherine E. Dunstan and Barry J. Fox: The effects of fragmentation and disturbance of rainforest on ground-dwelling small mammals on the Robertson Plateau, New South Wales, Australia 187

Tree patterns

Martin T. Sykes, I. Colin Prentice and Wolfgang Cramer: A bioclimatic model for the potential distributions of north European tree species under present and future climates 203

Leif Björkman and Richard Bradshaw: The immigration of *Fagus sylvatica* L. and *Picea abies* (L.) Karst. into a natural forest stand in southern Sweden during the last 2000 years 235

D. M. J. S. Bowman and G. T. Connors: Does low temperature cause the dominance of *Acacia* on the central Australian mountains? Evidence from a latitudinal gradient from 11° to 26° South in the Northern Territory, Australia 245

Book reviews 257

Volume 23, Number 3, May 1996

Lennart Andersson: Guest Editorial: An ontological dilemma: epistemology and methodology of historical biogeography 269

Gustav Paulay: Review Article: Circulating theories of coral biogeography 279

Plant geography

Hanna Tuomisto and Axel Dalberg Poulsen: Influence of edaphic specialization on pteridophyte distribution in neotropical rain forests 283

Byron B. Lamont and S. W. Connell: Biogeography of *Banksia* in southwestern Australia 295

Elmar Robbrecht: Genetic distribution patterns in subsaharan African Rubiaceae (*Angiospermae*) 311

Will Edwards and Mark Westoby: Reserve mass and dispersal investment in relation to geographic range of plant species: phylogenetically independent contrasts 329

Intertidal interlude

Rodrigo H. Bustamante and George M. Branch: Large scale patterns and trophic structure of southern African rocky shores: the roles of geographic variation and wave exposure 339

Animal geography

Preben S. Ottesen: Niche segregation of terrestrial alpine beetles (Coleoptera) in relation to environmental gradients and phenology 353

P. Davies, C. H. Gale and M. Lees: Quantitative studies of modern wet-ground molluscan faunas from Bossington, Hampshire 371

Jukka Jokimäki, Jukka Suhonen, Kimmo Inki and Simo Jokinen: Biogeographical comparison of winter bird assemblages in urban environments in Finland 379

Colmore S. Christian, Thomas D. Potts, G. Wesley Burnett and Thomas E. Lacher Jr: Parrot conservation and ecotourism in the Windward Islands 387

Book reviews 395

Volume 23, Number 4, July 1996

Fig trees and their associated animals

S. G. Compton, J. T. Wiebes and C. C. Berg: Introduction: The biology of fig trees and their associated animals 405

Aviva Patel: Strangler fig-host associations in roadside and deciduous forest sites, South India 409

S. van Noort and S. G. Compton: Convergent evolution of agaonine and sycoecine (Agaonidae, Chalcidoidea) head shape in response to the constraints of host fig morphology 415

Marc Gibernau, Martine Hossaert-McKey, Marie-Charlotte Anstett and Finn Kjellberg: Consequences of protecting flowers in a fig: a one-way trip for pollinators? 425

Judith L. Bronstein and Martine Hossaert-McKey: Variation in reproductive success within a subtropical fig/pollinator mutualism 433

Stuart A. West, Edward Allen Herre, Donald M. Windsor and Philip R. S. Green: The ecology and evolution of the New World non-pollinating fig wasp communities 447

Marie Charlotte Anstett, Finn Kjellberg and Judith L. Bronstein: Waiting for wasps: consequences for the pollination of dynamics of *Ficus pertusa* L. 459

Hugh Spencer, George Weiblen and Brigitta Flick: Phenology of *Ficus variegata* in a seasonal wet tropical forest at Cape Tribulation, Australia 467

Cecilia M. Smith and Judith L. Bronstein: Site variation in reproductive synchrony in three neotropical figs 477

James M. Cook and Sally A. Power: Effects of within-tree flowering asynchrony on the dynamics of seed and wasp production in an Australian fig species 487

Kim St J. Damstra, Susan Richardson and Bev Reeler: Synchronized fruiting between trees of *Ficus thonningii* in seasonally dry habitats 495

John D. Nason, E. Allen Herre and James L. Hamrick: Paternity analysis of the breeding structure of strangler fig populations: evidence for substantial long-distance wasp dispersal 501

G. Michaloud, S. Carrière and M. Kobbi: Exceptions to the one:one relationship between African fig trees and their fig wasp pollinators: possible evolutionary scenarios 513

Edward Allen Herre, C. A. Machado, E. Bermingham, J. D. Nason, D. M. Windsor, S. S. McCafferty, W. Van Houten and K. Bachmann: Molecular phylogenies of figs and their pollinator wasps 521

Carlos A. Machado, Edward Allen Herre, Shawn McCafferty and Eldredge Bermingham: Molecular phylogenies of fig pollinating and non-pollinating wasps and the implications for the origin and evolution of the fig-fig wasp mutualism 531

Myriam Harry, Michel Solignac and Daniel Lachaise: Adaptive radiation in the Afrotropical region of the Paleotropical genus *Lissocephala* (Drosophilidae) on the pantropical genus *Ficus* (Moraceae) 543

S. G. Compton, A. J. F. K. Craig and I. W. R. Waters: Seed dispersal in an African fig tree: birds as high quantity, low quality dispersers? 553

Elisabeth K. V. Kalko, Edward Allen Herre and Charles O. Handley, Jr: Relation of fig fruit characteristics to fruit-eating bats in the New and Old World tropics 565

Ian W. B. Thornton, Stephen G. Compton and Craig N. Wilson: The role of animals in the colonization of the Krakatau Islands by fig trees (*Ficus* species) 577

Edward Allen Herre: An overview of studies on a community of Panamanian figs 593

Volume 23, Number 5, September 1996

Jerome E. Dobson: Special Paper: A palaeogeographic link between Australia and eastern North America: a New England connection? 609

Heidi M. Snell, Paul A. Stone and Howard L. Snell: Special Paper: A summary of geographical characteristics of the Galápagos Islands 619

R. G. H. Bunce, C. J. Barr, R. T. Clarke, D. C. Howard and A. M. J. Lane: Special Paper: ITE Merlewood Land Classification of Great Britain 625

Of armadillos, adders, amphibians and other animals

James F. Taulman and Lynn W. Robbins: Recent range expansion and distributional limits of the nine-banded armadillo (*Dasypus novemcinctus*) in the United States 635

D. W. Macdonald, F. Mitchelmore and P. J. Bacon: Predicting badger sett numbers: evaluating methods in East Sussex 649

C. J. Reading, S. T. Buckland, G. M. McGowan, G. Jayasinghe, S. Gorzula and D. Balharry: The distribution and status of the adder (*Vipera berus* L.) in Scotland determined from questionnaire surveys 657

J. C. Poynton and R. C. Boycott: Species turnover between Afromontane and eastern African lowland faunas: patterns shown by amphibians 669

Wilson R. Lourenço, Orlando Cuéllar and Fausto R. Méndez de la Cruz: Variation of reproductive effort between parthenogenetic and sexual populations of the scorpion *Tityus columbianus* 681

Spyros Sfenthourakis: A biogeographical analysis of terrestrial isopods (Isopoda, Oniscidea) from the central Aegean islands (Greece) 687

Islands and their biogeography

Mark V. Lomolino: Investigating causality of nestedness of insular communities: selective immigrations or extinctions? 699

Stanley R. Herwitz, Richard P. Wunderlin and Bruce P. Hansen: Species turnover on a protected subtropical barrier island: a long-term study 705

Ian Thomas and J. B. Kirkpatrick: The role of coastlines, people and fire in the development of heathlands in northeast Tasmania 717

Book reviews 729

Notice 733

Volume 23, Number 6, November 1996

C. B. Cox: Guest Editorial: 20 years of a biogeography textbook 735

Trees and shrubs in time and space

M. S. Hopkins, J. Head, J. E. Ash, R. K. Hewett and A. W. Graham: Evidence of a Holocene and continuing recent expansion of lowland rain forest in humid, tropical North Queensland 737

R. J. Williams, G. A. Duff, D. M. J. S. Bowman and G. D. Cook: Variation in the composition and structure of tropical savanas as a function of rainfall and soil texture along a large-scale climatic gradient in the Northern Territory, Australia 747

Christine Estreguil and Eric F. Lambin: Mapping forest-cover disturbances in Papua New Guinea with AVHRR data 757

Jean-Yves Meyer and Jacques Florence: Tahiti's native flora endangered by the invasion of *Miconia calvescens* DC. (Melastomataceae) 775

Rani M. Krishnan and Priya Davidar: The shrubs of the Western Ghats (South India): floristics and status 783

Andrew S. Gardner and Martin Fisher: The distribution and status of the montane juniper woodlands of Oman 791

Clare S. Watson: The vegetational history of the northern Appennines, Italy: information from three new sequences and a review of regional vegetational change 805

Leif Kullman: Recent cooling and recession of Norway spruce (*Picea abies* (L.) Karst.) in the forest-alpine tundra ecotone of the Swedish Scandes 843

Book reviews 855
